

FAASTeam presents:

Lessons Learned from a Long Long Cross-Country Flight Colorado and Back

Having a pilot's license affords us the privilege of flying almost anywhere we wish. Many pilots dream of flying low and slow across the country, and some aren't sure where to begin planning such a big trip.

In this safety seminar, a group of SCFC Pilots and Instructors draws on their experience from a trip from San Carlos to Colorado and back with the FlyOutGroup (FOG). This year they head back to Colorado for some awesome Rocky Mountain flying. The trip proved to be a great opportunity to complete your G1000 avionics or airplane-specific checkout and earn your high performance endorsement.

Included in the presentation will be:

- An overview of the planned and actual route

- Breakdown of the trip into individual legs

- Discuss conditions present on several leg (including existing and forecast weather, terrain and airspace)

- Address principal planning issues for each trip leg

- Discuss risks of planned flight and alternatives

- Critique of actual flight flown and decisions made

- Discuss resources used to complete each leg

Join us to get more insight into making your long cross-country dream trip a reality.

This event qualifies for FAA Wings credit - click here to register.

Event Details

Wed, Aug 3, 2016 - 19:00 PDT

San Carlos Flight Center

655 Skyway Road

215

San Carlos, CA 94070

Contact: Dan Dyer
(650) 946-1700

dan@sancarlosflight.com

Select #: WP1570278

Representative DAN KELLY DYER

Any questions, contact us at (650) 946-1700 or info@sancarlosflight.com.

Directions: Pilots who fly in will park in transient parking on the opposite side of the field and expect to walk about 10 minutes (.5 mile) to the Flight Center. Suite 215 is upstairs in the northwest corner. On occasion, rides may be prearranged through San Carlos Aviation and Supply.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
